I am a highly motivated and resourceful, self-taught full-stack developer with the desire to make eye-catching websites. Within 6 months, I have learned and implemented a PERN tech stack in my projects, while continuing to improve on my existing skills and expand my knowledge of web development software.

Personal Projects

RemindMe

7/2022-current

- A CRUD website to track the user's reminders
- Users can create their own accounts and log in to access their saved reminders
- The front-end was made with ReactJS and SCSS
- The back-end uses NodeJS/ExpressJS to access and manipulate data in PostgreSQL
