# Bryce Lozinski | Software Engineer | Front-End

(424) 230-2383 • blozinski056@gmail.com • San Diego, CA • blozinski.com • github.com/blozinski056

# **SKILLS**

Web Development: React.js, Typescript, JavaScript (ES5 and ES6), HTML5, CSS3, SCSS, Node.js, Express.js, PostgreSQL, Heroku, Netlify, Postman, Git, GitHub, RESTful API

Soft Skills: Resourceful, Curious, Willing to learn, Self-motivated, Leadership, Teamwork, Communication, Attention to detail

### **PROJECTS**

### RemindMe:

- A CRUD website that tracks the user's reminders and displays the time remaining until the deadline
- Utilizes Node.js, Express.js, PostgreSQL, and RESTful API calls to authenticate user login credentials as well as access and manipulate user reminder data
- This project was originally created using React.js, JavaScript, HTML5, and CSS3, but was redesigned to improve the appearance and allow the use of back-end technologies using a PERN (PostgreSQL, Express.js, React.js, Node.js) tech stack
- Unique URLs for every user created with React Routes
- Technology used: React.js, SCSS, JavaScript, HTML5, PostgreSQL, Node.js, Express.js
- Website: <a href="https://remindmenotes.com/">https://remindmenotes.com/</a>
- GitHub: <a href="https://github.com/blozinski056/reminder-app">https://github.com/blozinski056/reminder-app</a>

#### MovieTracker:

- Utilizes the external API, The Movie Database API, to allow users to make lists of movies they have watched and have not
  watched
- Utilizes Node.js, Express.js, PostgreSQL, and RESTful API calls to authenticate user login credentials as well as access and manipulate user movie data
- This project was originally created using React.js, JavaScript, HTML5, and CSS3, but was redesigned to improve its appearance and include back-end technologies to save user data using a PERN tech stack
- Unique URLs for every user created with React Routes
- Technology used: React.js, SCSS, JavaScript, HTML5, PostgreSQL, Node.js, Express.js
- Website: https://movietrackerlist.com
- GitHub: https://github.com/blozinski056/movie-list

# Order 8:

- A puzzle game where the user must rearrange 8 number tiles into numerical order in a 3x3 grid
- Includes a timer to track how long the user takes to solve the puzzle
- Randomizes tile locations on "Restart"
- First implementation of Typescript, designed and created within 2 days
- Technology used: React.js, Typescript, JavaScript, HTML5, SCSS
- Website: <a href="https://order8game.com">https://order8game.com</a>
- GitHub: https://github.com/blozinski056/number-game

### **EinSite:**

- A multi-page ecommerce website for mainstream anime merchandise
- User's carts are saved to local storage so that their items are not lost when they close their tab
- Unique URLs for each page created with React Routes
- Technology used: React.js, SCSS, JavaScript, HTML5
- Website: https://einsiteecomm.com
- GitHub: https://github.com/blozinski056/anime-ecommerce

# Portfolio Website:

- My personal landing page that contains links to all of my live projects
- Redesigned multiple times to add animations and improve appearance
- Technology used: React.js, SCSS, JavaScript, HTML5
- Website: https://blozinski.com
- GitHub: https://github.com/blozinski056/portfolio

## **EDUCATION**

University of California - San Diego B.A. in Physiology & Neuroscience Minor in Computer Science
